

REFLECTION ON THE COST OF A WEDDING

1. Did the costs associated with a wedding surprise you?
2. Why do some wedding cost more and some less?
3. There is a new wave moving across Cache Valley where the reception is skipped and those closest to the bride and groom are invited to a wedding dinner. Is this more or less costly? Would you consider doing this?
4. Why do some couples go into debt to finance their honeymoon and or wedding rings?
5. What else could you purchase with the amount of money it takes to finance a wedding and honeymoon?
6. Does this expenditure of money guarantee happiness in the marriage?
7. Why do we spend so much? Is it a waster of money?
